Full Stack Web Developer with a background in Education Technology and Marketing. Strong communicator with proven ability to understand and evaluate complex issues, and effectively prioritize multiple tasks. Strong passion for using creativity to develop meaningful technology. Holds a bachelor's in marketing and a certification in Full Stack Web Development.

TECHNICAL//SKILLS

Node.js, Express, JavaScript, React, jQuery, GIT, GitHub, JIRA, AJAX, APIs, Media Queries, CSS, Firebase, MongoDB, Salesforce, Zendesk, JSON, Materialize, Bootstrap, HTML, MySQL

APPLICATIONS

Dinner and a Movie | https://github.com/calemonte/project1 | http://kennywhitebloom.net/project1/
- Using the edamam API and OMDB API users can create a recipe with the ingredients they have in their homes and a movie for them to watch based on their interests.
- Worked on front end UI, implementing the edamam API, assisting with authentication.
- **Technologies Used**: JavaScript, jQuery, HTML, CSS, Firebase, Moment.js, Bootstrap Multiselect

Philly Me In | https://github.com/jpirrone104/Project2 | https://philly-me-in.herokuapp.com/
- Philadelphians can share interest and local knowledge to create tours around the city. Tourists who want to share "insider" info for other tourists to make use of can add information to tours and also create tags for other users to search and create favorites.
- Worked on front end UI and authentication using Passport.
- **Technologies Used**: Node.js, Express, Sequelize, Express Handlebars (templating), Passport.js (authentication), JavaScript, jQuery, MySQL, HTML/CSS, Bootstrap, Heroku

MySQuence | https://github.com/TennisSprinterkb/MySQuence | https://mysequence.herokuapp.com/
- Helps keep body, mind, and energy goals. MySQuence is a swiss army knife for the general yoga practitioner. Looking for a studio, want to build a sequence, or watch instructors from the app? This app has it all in one place.
- Worked on front end UI, authentication, breathing page, Material UI and React structuring.
- **Technologies Used:** React, Sequelize, JavaScript, MySQL, HTML/CSS, Bootstrap, Heroku, JawsDB, MapboxGL
